CAREER OBJECTIVE

Highly driven web developer with 4+ years of frontend experience and proven ability to learn and collaborate in rapidly changing environments. Completed 1000+ hours of bootcamp training and college coursework in HTML, CSS, JavaScript, and React.js, and gained hands-on professional experience as a developer in a fast-paced work setting. Now seeking my next opportunity as a Web Developer to continue growing my skills and contributing to impactful projects.

EXPERIENCE

Server (May 2018 - May 2022)

R bar - Asbury Park, NJ

- Provided friendly, efficient table service while managing multiple guests and priorities.
- Processed orders and payments accurately using point-of-sale systems.
- Collaborated with team members to maintain a clean, organized dining environment and resolve guest issues.

Web Developer (May 2022 - Current)

Splendor Design Group – Red Bank, NJ

- Lead web development projects from planning to launch, coordinating with designers, account managers, third-party developers, and hosting providers.
- Develop and customize WordPress websites using PHP and Advanced Custom Fields (ACF), integrating third-party plugins to create responsive, user-friendly experiences.
- Maintain, optimize, and troubleshoot existing websites through plugin updates, security monitoring, performance improvements, and SEO enhancements.
- Build proofs of concept and prototypes, translating Figma files, UI/UX designs, and mockups into responsive, production-ready front-end code.
